Bus Routes represented in black provide service after 9 PM. The latest service provided is Route 5 ending at 2:50 AM. The shaded area around the routes represents the 3/4 mile ADA service area. The address for pickup and drop-off must be within this service area. The pickup and drop-off times must coincide with the earliest and latest time the fixed route runs in that area.

As the CTC, MV Transportation schedules ADA service after 9 PM. Reservations must be made the day before by 5 PM. RTS will operate vehicles after 9 PM to pickup passengers requesting service.
